

Public Workshop and CEQA Scoping Meeting: Evaluating Water Quality Standards for the Protection of Human Health in Alamo and Ulatis Creeks and Cache Slough, Solano County

Vacaville, CA

28 June 2007

Attendees:

Betty Yee, Central Valley Water Board
Mitch Goode, State Water Board
Karen Larsen, Central Valley Water Board
Holly Grover, Central Valley Water Board
Jacque McCall, City of Vacaville
Stacey Ellis, UC Davis
Joyce Gutstein, UC Davis
David Tompkins, City of Vacaville
Andrew Sayers-Fay, Robertson-Bryan, Inc.
Michael Bryan, Robertson-Bryan, Inc.
Dale Pfeiffer, City of Vacaville
Kelley Taber, Somach, Simmons & Dunn
Leah Walker, CA Department of Health Services

Holly Grover presented the project and preliminary findings on the CEQA impacts.

Comments:

Leah Walker had a question regarding the information supporting the lack of municipal or domestic use in the project creeks. Surveys on water use are described in a technical memorandum titled "Existing Municipal and Domestic Uses of Alamo Creek, Ulatis Creek and Cache Slough" that was prepared for the City of Vacaville by Robertson-Bryan, Inc. The technical memorandum will be provided to Leah Walker.

Leah Walker stated that based on the lack of municipal use in these creeks, the Department of Health Services supported dedesignating the municipal beneficial use.
